

# The industry's only wind warranty with no wind speed limit<sup>1</sup>

There are over 18,000 severe wind events reported each year in the US.<sup>2</sup> That's why GAF introduced this industry-first wind warranty — for added peace of mind.

# WindProven™ Limited Wind Warranty

When installed with the required combination of at least 4 qualifying GAF accessories, Timberline® Shingles with LayerLock® Technology are eligible for an industry first: a wind warranty with no maximum wind speed limitation.<sup>1</sup>

## Key details:

### ■ No max wind speed limitation:<sup>1</sup>

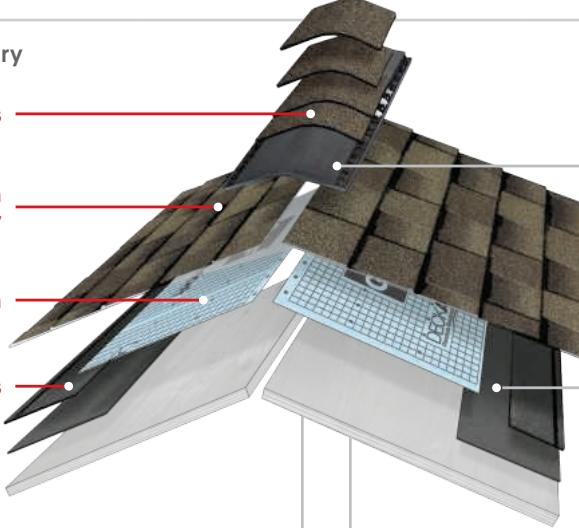

Where other wind warranties have a maximum wind speed limit, the WindProven™ Limited Wind Warranty does not. This means your shingles are covered no matter how hard the wind blows.

### ■ No cost or registration required

### ■ No storm clause:

Other wind warranties may have a "named storm clause," limiting coverage on hurricanes and tropical storms officially recognized by the World Meteorological Organization. The GAF WindProven™ Limited Wind Warranty does not have a named storm clause, ensuring wind coverage that weathers the storm, no matter the storm.
